Azure Application Sites and Services Creation

Comprehensive setup and configuration of Azure applications, sites, and services tailored for mission-driven organizations.

CHALLENGE

Non-profit and healthcare organizations often grapple with the need to establish a robust online presence and deploy applications that support their mission without draining their limited resources. Navigating the technical complexities of setting up and managing applications in the cloud while doing so in a cost-effective manner presents a significant challenge. Without proper setup and management, organizations risk security breaches, operational inefficiencies, and increased costs. These entities often lack the in-house expertise required, necessitating a solution that simplifies, optimizes costs, enhances efficiency, and ensures security and compliance.

SOLUTION

Avange's Azure Application Sites and Services Creation service is designed to alleviate these challenges, providing a streamlined, expert-driven process for building and configuring applications, sites, and services in the Azure cloud. This service supports your organization's long-term goals by offering a foundation that is easy to manage, scale, and adapt to changing needs and requirements. We conduct a thorough assessment, craft a detailed action plan, create required resources, establish a secure environment, and optionally set up a Dev-Sec-Ops environment and code repository. The result is a ready environment built to meet expectations and best practices.

BENEFITS

- **Cost Optimization:** Efficient use of Azure resources reduces operational costs.
- **Enhanced Efficiency:** Improved management of subscriptions, storage, applications, and resources.
- **Scalability:** Adjust resources based on needs, leveraging Azure's scalability.
- **Security:** Azure's robust security platform protects your applications.

Choosing Avange means gaining a partner that brings a blend of technological expertise and sector-specific knowledge, offering tailored services that are advanced, accessible, and easy to implement.

About Avange

Avange was born out of a deep understanding of both the corporate and humanitarian worlds. Our team boasts professionals who have collaborated with global giants in the private sector and have also been on the ground with esteemed organizations like the United Nations and Doctors Without Borders (MSF) European Space Agency (ESA), Argentinian Ministry of Health, and many other organizations around the world. This rich tapestry of experiences ensures that our approach is always rooted in real-world challenges and solutions.

Our strength lies in our diverse backgrounds, with team members who have navigated the precision of the corporate world and the unique demands of healthcare, NGOs, and government projects. This blend equips us with a holistic perspective, allowing us to craft IT solutions that are not only technologically advanced but also culturally sensitive and mission-aligned.

At Avange, we pride ourselves on our ability to bridge the gap between technology and the humanitarian and healthcare sectors. Our collective experience is our greatest asset, and our commitment is unwavering: to empower organizations to achieve more, serve better, and make a lasting impact.
